

Create PDF files quickly and easily!

[Instructions](#)

Welcome:

Setup has successfully installed the pdf995 printer on your system.

To create a PDF file:

Print a document from any application choosing the PDF995 printer from the printer dialog. Do NOT select "print to file." You will be prompted to enter the name of the PDF file you wish to create. The PDF will be automatically launched in Acrobat (pdfEdit995 may be used to configure this option).

The free version of PDF995 will display a sponsor page in your web browser each time you create a PDF file. If you would prefer not to see sponsor pages, you may [download](#) a license key for \$9.95.

Please visit our site to see our [FAQ](#), our software license or to contact us. Our FAQ contains instructions for installing Pdf995 on Citrix/Terminal Server and as a Shared Network Printer.
