*To make a neater edge on your finished piece, work your beginning row in the back ridge of your foundation chain.

*To make weaving in ends easier, wherever you can, crochet over the tail while continuing working on your piece. Other ends should be left long then weaved 2" one way and 2" back the other way to secure the end.

*If you are making an ami, weave your end into the ami one way then out the other side and through again. Cut the tail close to the ami and play around with it to get it back inside.

*To change colours its easiest to work to the end of where you need colour 1, then begin working your final stitch, but use the new colour to finish the stitch. Cover the old colour with the new colour by working over it.

*When joining a new strand of yarn to a piece, join your yarn in the stitch **BEFORE** the joining. This way the joining won't be as noticeable.

*Join with a sc instead of (sl st, ch 1, sc) where applicable. This makes your join less noticeable.

*When dec at the beg of the next row, do not ch 1 when you turn. This will get rid of the "step" look to the piece and leaves a cleaner edge.
