

International Conference on Information and Intelligent Systems (ICIIS'2013)

March 24-26, Sousse, Tunisia

Call for Papers: www.iciis.net

Technical Co-Sponsor

Researchers are invited to submit [abstracts](#), [posters](#) or [papers](#) through [EDAS](#) or, [Easychair](#); or by e-mail: chair@iciis.net; reporting original, unpublished research results in Computer Related Studies by **January 15th, 2013** **February 28 2013**. All accepted papers will be printed in the conference proceeding and candidate for publication in [specific International journals](#) related to corresponding research areas. ICIIS 2013 will have a [poster session](#) for which we will also accept late submissions; such late poster papers will be included in a special proceeding, and also candidate for journal publication.

ICIIS 2013 invites original contributions on all Computer Applications Technology, including, but not limited to:

Conference Chairs

Rachid Sammouda

King Saud University, Saudi Arabia

Program Chairs

Marc Jansen

University of Applied Sciences Ruhr West,
Germany

Senouci Mohamed

University of Oran, Algeria

Organization Chairs

Nejmeddine Tagoug

King Saud University, KSA

Noboru Niki

University of Tokushima, Japan

Conference Coordinator

Moshira Ali

Dar Al-Uloom University, KSA

Local Organizing Committee

Habib Sammouda

University of Sousse, Tunisia.

Faisal Mili

Faculty of Management and
Economic Sciences, 5100 Mahdia,
Tunisia

Conference Venue:

**El Mouradi Palm Marina Hotel 5*,
Port El Kantaoui, Sousse, Tunisia.**

- Adaptive and Interactive Interfaces
- Advanced Correlation Algorithms
- Agile Software Development
- Applications of Artificial Intelligence
- Applications of Expert Systems
- Applications of Fuzzy Logic and Neural Network
- Artificial Intelligence and Decision Support Systems
- Bayesian Networks
- Bioinformatics
- Business Processes Re-engineering Security, Freedom and Privacy
- Case Studies and Empirical Studies
- CASE Tools for System Development
- Case-Based Reasoning Systems
- Context-Oriented Information Retrieval and Processing
- Coordination in Multi-Agent Systems
- Coupling and Integrating Heterogeneous Data Sources
- Data Mining & Data Warehouses
- Database Security and Transaction Support
- Databases and Information Systems
- Defining and Documenting Software Processes
- Design Methodology and Cognitive Factors in Design
- Distributed Database Applications
- Distributed Software Development
- Document Analysis
- Enterprise Resource Planning
- Enterprise-Wide Client-Server Architecture
- Evolutionary Programming
- Functional and Non-Functional Requirements
- Group Decision Support Systems
- HCI on Enterprise Information Systems
- Human Factors
- Human-Computer Interaction
- Industrial Applications of Artificial Intelligence
- Information Engineering Methodologies
- Information Systems Analysis and Specification
- Information Retrieval
- Integration Tools
- Intelligence Applications
- Intelligent Agents
- Intelligent Social Agents and Distributed Artificial
- Intelligent Systems and Applications
- Intelligent Tutoring Systems
- Intelligent User Interfaces
- Internet HCI: Web Interfaces and Usability
- IT Management & Development
- Knowledge and Semantic Transformations
- Knowledge Discovery & Data Mining
- Knowledge Management
- Knowledge-based Recognition
- Knowledge-based Systems Engineering
- Legacy Systems
- Middleware Integration
- Mobile Databases
- Mobile Network Security
- Model-Driven Software Engineering
- Modeling Concepts and Information
- Modeling Formalisms, Languages, and Notations
- Modeling of Distributed Systems
- Models of Software Behavior
- Multimedia Database Applications
- Multimedia Systems
- Natural Language Interfaces to Intelligent Systems
- Object-Oriented Database Systems
- Ontology Engineering
- Organizational Issues on Systems Integration
- Organizational Semiotics
- Processing of Distributed Geospatial Data
- Requirements Analysis
- Semiotics in Computing
- Service Oriented IS Engineering
- Service-Oriented Architectures
- Software Architecture and Design
- Software Engineering
- Software Measurement
- Steganography Technology
- Strategic Decision Support Systems
- Supply-Chain Management
- Support Service Engineering
- Systems Engineering Methodologies
- Systems Development and Evaluation
- Telematics and Middleware Platforms
- Ubiquitous Services, Anticipative Systems
- Unmanned Systems, Robotics
- Virtual Reality and Augmented Reality

**Special Session on:
Applied Economy and Simulation**

IMPORTANT DATES

Paper / Abstract submission: **February 28, 2013**
Early Registration : **March 5, 2013**

SPONSORS

N & N Global Technology, Tunisia
Dar Al Uloom University, KSA
Future Technologies & Innovations, Tunisia
