Instructions

A video tutorial is available for this project here: <http://youtu.be/Fajcm14qAm0>

Use mini glue dots to fold all twelve 1¼" pieces of Raspberry Ripple ribbon in half to form loops. Cut a jumbo sticky round into quarters and cut a 1" circle from each of two quarters. Use one of the sticky round circle to adhere 6 loops evenly around the edge, place another 1" sticky round on the top of these and then position the remaining 6 loops to fill in the 'gaps' in the first layer. Place another quarter of a sticky round onto the 1" circle of Raspberry Ripple cardstock. Tie a knot in one end of the 10" piece of Raspberry Ripple and attach this to the center of the round. Attach the length of ribbon to the circle by twisting as you work around the circle. Place the final quarter of sticky round to the back of the 'twisted rose' centre piece and then attach on top of the loop sections.

Finish by cutting one of the 5 pieces of Gumball Green ribbon in half to make two 'leaves and attach to the back of the flower. Thread the split ring through the remaining length of Gunball Green ribbon, double over and attach to the back. Stamp the 'made for you' and the butterfly image onto the white 1 circle, attach to the scallop circle and use to cover up the back of the key ring.
