Ailments from

MODALITIES

III << and >>

QUANDO? When?

Modalities of onset, progression or rythm
 time duration speed
 periodicity
seasons day/night
 WE/week work/vacation

Modalities related to surroundings
 weather (meteo) open air/draft
 climate (geography) sea/mountain
 temperature *inside/outside pack*

Modalities of Position
 attitude
 sleep (position)

Modalities related to Physiological actions
 motion/rest touch/pressure
 eating/drinking/fasting
 food and drinks << and >>
 sleep/sex eliminations:
stool urine menses perspiration
Behavior Modalities

QUOMODO? How?

IV
CONCOMITANTS
Alternants

QUIBUS AUXILLIARIS? With what?

Objective General Symptoms
 Signs with Fever: *chill perspiration pulse*
 Secretions: *consistency color smell*
 Excretions *stool urine perspiration menses*
 Sleep disorders Dreams
 Sex disorders

Subjective General Symptoms
 Appetite: *anorexia boulimia* Weight
 Thirst
 Food and Drinks *desires - aversions*
 Variations in Behavior: *irritability anger*
agitation - sadness prostration - crying
seaking for consolation or not - sensitivity
to cold/heat - anxiety/fear
