LOGOS Public Affairs is looking to hire a new stagiaire in our energy and environment team. The position will initially be for six months (starting in January 2014), with a possibility of extension. During the stage you will get experience working on public affairs strategies for diverse private sector clients in the energy and environment sectors. The salary is competitive especially compared to similar positions in other Brussels-based consultancies.

The team is relatively small so you will get lots of hands on experience and be given a good amount of responsibility. There is no official job advert or specification attached so apologies for that, but day to day tasks will include monitoring of relevant policies, writing memos for clients, doing newsletters, identifying relevant stakeholders, correspondence with policy makers, intelligence gathering, political analysis, going to events and reporting back.

The company is well established and for the last 15 years has been one of the most influential Public Affairs consultancies in Brussels. LOGOS has recently integrated into the MCI group as part of a collaborative partnership established 5 years ago, which basically means the company has more services to offer clients at its disposal so is in a good position to continue to grow in the next few years.

If you are interested, please send a CV and a cover letter (no more than 1 page) to Carlos Ochoa - carlos.ochoalonso@logos-eu.com

There is not strictly a deadline but I would advise you to do it as soon as possible.

Goodbye and good luck.
