II.How to put jades!

First, you have to check your ninja's passive for best result.

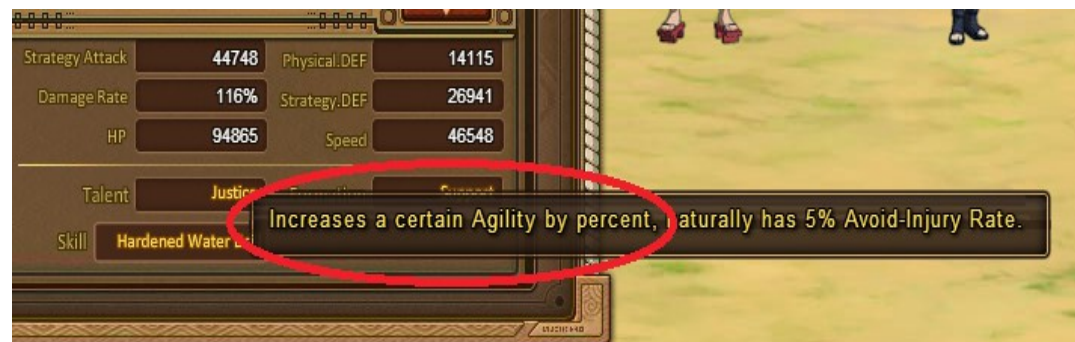

- Put 1st Force jades on ninja with « Increase Force by percent » passive.

- Put 1st Chakra jades on ninja with « Increase Chakra by percent » passive.

- Put 1st AGI jades on ninja with « Increase AGI by percent » passive.

III. Things to know about Jades !

You have to know that for Hit, Crit, Counter, S.Atk, Block and Dodge.
There is a limit you can't exceed (90%).
So it's useless to put more on your ninja!

Also, for Force and Chakra !
You must know that Force jades are mainly for Assaulter (Taijutsu /
Ninjutsu) and vanguard

Taijutsu

Ninjutsu

and that Chakra jades are mainly for Support (and genjutsu main)

Genjutsu

In general, if you see « Physical Attack » your ninja need force
And if you see « Strategy Attack » your ninja need chakra

I hope this topic will help you,
Enjoy the game and have fun.
