

College Painters Peterborough

Advantage College Painters

The Advantage team would like to welcome ALEX DRAKE to our growing team of qualified house painters! Alex with his partner Ashley will be running student painter operations in Abbotsford, and Chilliwack British Columbia. Alex brings with him 3 years of painting experience under one of our largest full time operators between his studies. Stay tuned for an updated list of all of our College Painter Operators in the coming weeks! Similar to the business model of our professional painting division, our college painter or student painting division is composed of a small number of handpicked operators.

By keeping our numbers exclusive we keep quality at an extremely high level, and only have university and college students operating who live by our values. We recognize there are many jobs in the painting industry that when properly trained, students can handle, and in the case of our operators, handle very well.

All of our student painters are full time university or college students and run full time painting businesses with Advantage in the summer to help offset the tuition. All of our operators learn from our professional painters, and receive tremendous support over the summer. We have qualified student operators fully trained to take on a variety of painting services. We are confident in our student painters ability to take on a wide array of jobs, and promise the highest quality painting of any of the student painting companies.

By choosing to take on far less operators than many of our competitors we have far more control over the final product, ensuring a superior job and happy customers throughout the summer!

Our student division also covers a huge area including anything within 2 hours of: the entire Greater Toronto Area, Oakville, Barrie extending throughout the Muskokas and cottage country to Peterborough and the Kawarthas as far as Minden and Haliburton, and even as far east as Kanata, Nepean and Ottawa, and now Abbotsford, British Columbia!

Advantage House Painters Inc

Our full time division is composed of a number of experienced painting professionals who all ran their own painting businesses prior to joining together, and creating Advantage House Painters Inc. As a result we are now able to cover even more territory, and can pull from our various operators when tight deadlines or large painting projects arise.

The beauty of Advantage House Painters Inc. is although we are now a larger company and can produce work just about anywhere within 3 hours of the Greater Toronto Area, and 2 hours within Ottawa, we are still a small company at heart. The Advantage business model is simple to ensure we continue to make our customers extremely happy. We have a small group of operators all running businesses with anywhere from 4-8 employees. By keeping our number of operators exclusive we ensure everyone operates with the same core values and continue to provide quality service at fair prices. Overall, our operators have a very hands-on approach to limit confusion that can occur when too many middlemen exist.

Condo Painting

We have a team that focuses almost exclusively painting in condominiums. Condo painting is not drastically different than most interior painting but there are inherent difficulties when working in condo buildings. From using the service elevator to get equipment to the 30th floor to working out parking arrangements in buildings where there is limited access to parking our team has the experience to make sure your condo gets painted efficiently and properly the first time.
