# WHAT IS FREEDOM OF SPEECH ?

Maintenant je vais mettre dans le diapo que des photos, mais toi tu vas apprendre ce que je vais écrire et le réciter mais en improvisant si tu veux : So, freedom of speech ! We would first like to ask you guys what you think of that right, what do you think it is ? (les gens répondent tous). Now after we all heard what you wanted to say, we are going to show you a video where people from the US are asked about that freedom of speech, and we hope we either see, or don't notice any difference between our moroccan's definition of this right, and american's thoughts about it.

(je lance la video et on la finit) Now, what do you notice about this video ? (les gens répondent, si personne repond, c'est pas grave) What we personally noticed, is that american people have the same basic idea of free speech, however we've seen that some of them say something really important, which is that this freedom of speech can't be used however we want it in some places which for us is kind of paradoxical, don't you think so ? (les gens devraient dire un truc) si personne repond juste dis now we shall go to our next point

## WHERE CAN THAT FREEDOM BE ESTABLISHED ?

Now, this freedom of expression is only available in some countries, but we would like to see if you know where it can be established, tell us ! (les gens répondent,) si quelqu'un dit que c'est dans une démocratie , tu dis « yes, a democracy, this is the point we want to come to » sinon si personne dit la démocratie tu dis : Now basically, free speech is established in countries that are called democratic countries, so what do you think a democracy country is ? (les gens répondent) now we are going to show you a video that explains us what democracy is (la video se lance) now do you think this video shows the real face of a democracy ? (les gens répondent) now, to see how this free speech works in some democratic countries, i'm going to let hamza go through his work, enjoy.

HOW THAT FREEDOM IS WORKING IN  
« FREE » COUNTRIES ?

# FIRST AMENDMENT

MOROCCO'S FREEDOM OF SPEECH

# CONCLUSION

Now as we've all expressed our opinions, and watched many videos to understand deeply the meaning of that free speech, we would like to ask everyone of you to give us his opinion about that right, and tell us what he understood from it (les gens doivent tous repondre). Je vais dire : « Now free speech can be a fancy word, however, this might be a big issue as we can't say if countries themselves respect this right » TOI TU DIS : And so, we encourage you to have a critical mind about rules and rights in our word, and be very careful about what you say, wherever you go. Je finis avec: thank you for your attention and your help, and we hope you enjoyed our work.
