Does the vehicle to the right look like Junk to you? To some yes, to others, no. The Vehicle above happens to be a very expensive classic vehicle. Can you guess what vehicle it is? (answer below) Our perception of vehicles vary from one individual to another. Depending on your age, a 1978 280z may be special because it happens to be the last year of that particular body style. A younger person may think differently because they have no connection with that vehicle where as you once did.

We see hundreds of vehicles weekly, it really depends on how well that vehicle was taken care of. Newer vehicles can be in worse shape than older vehicles. It all depends on how the owner took care of their vehicle. We buy all types of vehicles and you would be surprised how many vehicles we buy are not junk!

(Answer) The above vehicle is a original 1937 Ford Model 812 Supercharged Beverly 4dr Sedan.
