

facts and figures

TARGET AUDIENCE:

students with a Licence or Bachelor degree in economics, psychology, applied maths, and « grandes écoles »

CLASS SIZE: **30/40 students**

ACADEMIC YEAR: **Sept-June**

LANGUAGE: **English**

upon completion

Graduates will have a deep understanding of human behavior in business and social environments. They will be able to adjust to many different jobs, be internationally mobile, evolve in their careers, and have eventually access to higher executive functions. Brilliant and motivated students will be at the cutting edge of research in economics and psychology. Graduates will be highly appreciated in some consulting activities in public or private organizations, human resource management, customer services, marketing, advertising, public relations, social policy, or strategic development...

partners

The Master Economics and Psychology is jointly delivered by the Economics Department of Pantheon-Sorbonne University (Paris 1) and by the Institute of Psychology of Paris Descartes University (Paris 5).

admission criteria

This Master is designed for students with a Licence or Bachelor degree in Economics, Psychology, Applied Maths, and « Grandes écoles ». Admission decisions are based on transcripts of the previous 3 years of study, CV, a letter of motivation, and letters of recommendation. A sufficient knowledge of English is required. Successful accomplishment of the M1 provides access directly to M2. Candidates with four years of higher education and an adequate bi-disciplinary training in economics and psychology can be considered for direct admission in M2.

terms of admission

We recruit a limited number of very good and motivated students coming from all parts of the world. French students are expected to have sufficient knowledge of English and foreign students are expected to know some French and be fluent in French after their studies. We also attach value to open-mindedness, general knowledge, and social skills. Candidates with prior training in economics enroll in Paris 1 and obtain a Master in Economics whereas candidates with prior training in psychology enroll in Paris Descartes and obtain a Master in Psychology.

program of the first year

MASTER

economics

and psychology

presentation

The Master *Economics and Psychology* is open to students in search of a deeper understanding of economic behavior and the open-mindedness brought by a truly bi-disciplinary training in economics and psychology.

1st year (M1)

Provides the basis for a common training of all students through:

- Discovery of a new discipline (economics or psychology)
- Bi-disciplinary work during a « Winter School » (2-week intensive program)
- Research project combining psychology and economics.

2nd year (M2)

Focuses on the interface between economics and psychology through:

- Advanced courses in psychology and economics with equal contributions
- Participation in the annual research seminar « Economics and Psychology »
- Bi-disciplinary research project
- Optional internship
- Possibility for graduates to prepare a PhD in economics or psychology

The Master **Economics and Psychology** is a two-year bi-disciplinary program. It welcomes students from all around the world. The majority of courses are taught in English.
