## Is this the spiritual son of devil ?

With Trump we are going to set sails for fail !

This is what we might think if we still have a television at home.

This is what the media mainstream preaches us daily.

The mainstream media constantly blackens the image of Donald Trump, we will try to whiten it, without bad wordplays.

If we look at the record of foreign relations that the president of the United States of America. When you ask him a question about what george bush did during his presidency, in particular for the war in middle east. Donald trump answers « I think that was a desatre, and i think that was the worst decision ever made, he had totally distabilise the middle east. If Sadam hussein still be in charge you wouldn't have the problems that you have right now, I mean if you had Khadaffi, if you had Saddam Hussein, look at the migration and now they're talking about taking 200.000 people, costing billions of dollars. We have no documentation, we have no idea where they come from, we have no idea who they are and the one thing i noticed and I say it I said at everybody I look at the migration they're all young, I mean so many young strong men... ». **page 8**

We are not going to comment on this quote and we are going to talk to the «Muslim ban»

There are only 6 countries on the list that is called the «Muslim Ban», Iraq is no longer part of this list, the latter was created by its predecessor Barack Obama. The countries included in this list are countries that no longer have an American embassy on their ground and that the biggest Muslim countries like Indonesia, Pakistan, India is not listed. Again an excessive exaggeration on the part of the doxa peddled by the mainstream media. **page 6-7** Recall the speech of Donald Trump concerning the American blacks. «I say it again! What do you have to loose ? You are living in poverty, your schools are not good, you have no jobs, 58% of your youth are unemployed. What the hell do you have to loose ?» It is, according to the media, the definition of a racist speech.

It is actually a rope that Donald Trump sends to black populations stuck in a ladderless well. Why does not any mainstream media talk about Trump's support that happens to be Jesse Jackson ? The blacks were more likely to vote for Trump than for John McCain, or George W bush before that. When Trump thought of running for the presidential election 16 years ago, 67% of blacks against 21% were in favor of his candidacy and received 62% favorable opinions among Hispanics. Is it not strange that Trump became racist when he became a Republican candidate ? Trump says he wants to reinvigorate poor neighborhoods and extract blacks from the spiral of poverty, family disintegration and violence. Meanwhile, under Obama, more and more blacks are living below the poverty line. The number of Blacks using food vouchers rose by 58%. This is how the Left helps the black community, impoverishing them and making them more dependent on the government. 93% of black victims of homicide are killed by other blacks. Ethnic relations have been the worst in decades. 8 years of Obama have been devastating for the black community. Yet they are told us Trump is the problem! What about Gay people ? Trump vowed to protect the LGBT community from a fanatical ideology that represents its main threat, radical Islam as he said in a speech. Trump has been and is still supported by Peter Thiel, a celebrity of the brightest and most recognized gay community in America. **page 5** After having been voting for a black president, who is not so black, he is rich, in reality the real cleavage is a cleavage between the rich and the poor. The rich blacks are all white, the poor whites are all black.

TAFTA is the name of the free trade treaty that was being negotiated between the US and Europe. This agreement threatens laws that protect citizens, workers and consumers. Food, health, public service, animal welfare, GMOs, environment, social rights, personal data and digital freedom. Everything was on the table of negotiations, the neoliberals considers that all these rules and all these laws are obstacles to profits, to trade. The Treaty provides for the authorization of undertakings to challenge States or local authorities before a private court if they consider that their prospects for benefits are impacted by public policy decisions. For example, australia and uruguay that have put in place anti-smoking policies are attacked by Philip Morris who demands billions of dollars in compensation. If the treaty was in force the companies could attack some European countries which refuses the GMO, the exploitation of shale gas. Thanks to Donald Trump, who is not an ultra liberal, this treaty will not see the light of day. **page 4**

Thanks to the last election Moscow and Washington are in very good position to agree on Syria. What should be very good news, the cold war is not such a distant past. The Europeans found the climate of cold war between Barrack Obama and Vladimir Putin untenable, the same person is currently insurpotable diplomatic proximity and friendship between the two countries. Donald Trump has clearly shown his desire to found a multi-polar world instead than continuing with imperialism and American domination over the world. **page 6**

## A newspaper against the newspapers.

Yes we are ! The fourth power submitted. Why Donald Trump does not like the media ? Why Media does not like Donald Trump ? Who has the most power ? The legislator ? The executive ? The judiciary ? Or rather finance and economics ? Who has the farthest voice ? The 12 banks that share the control of the US Federal Reserve, the Goldmanshachs, the J.P Morgan, the oil standard, the military-industrial complex or elected people without financial power ? When the fourth power belongs to the Bank and this power is in the process of redeeming and corrupting the other powers, it becomes a dictatorship, hardly identifiable because it is very subtle. **page 3**

Rupert Murdoch is one of the largest shareholders of The Wall Street Journal and also Goldman Sachs, JP Morgan, Meryll Lynch and Morgan Stanley. BlackRock is a shareholder of The Washington Post. The multi-nationals are buying up the TV channels and newspapers. At each major event that disrupts a country, a discovery of corruption, an attack, our teams poses two very important questions. In the last instance who benefits from the crime ? Where does the money come from ? By extension you work for who pays you. **page 14** The politic is three band billard.

The anti-Trump campaign: we will dismantle the arguments of the dominant media on four subjects. The Obamacare is not viable contrary to what the Atlantic press claims, the disadvantaged classes did not take advantage of this device. This form of «social security» proved too costly and too restrictive to attract.

Concerning the extension of the Wall at the Mexican border, the Secure Fence Act was signed by President George W. Bush who began construction. This was pursued by President Barack Obama with the support of the Mexican government of the time.

Concerning the voluntary termination of pregnancy, President Trump prohibited the payment of subsidies to associations receiving funds from abroad. He called certain association by imposing on them to choose either between the will to help women in distress or to be paid by George Soros to protest against him as it was the case in the past. This decree therefore has nothing to do with the abortion, but with the prevention of a «colored revolution» like in Ukraine.

Concerning the anti-immigration decrees, Donald Trump announced that he would apply the law inherited from the Obama era, expel the 11 million illegal foreigner. He suspended financial aid to cities that refuses to enforce the law. The campaign conducted by the Atlantic press against Donald Trump is therefore unfounded.

To claim that he has declared a war against Muslims, to publicly mention his possible dismissal, even his murder, is no longer lie, it is war propaganda. **page 4**

## We avoided the worst?

Probably but nothing is certain, the political professionals like Hilary Clinton are used to not honored their commitment, unlike Trump for now. The Council on Foreign Relations (CFR), which is nevertheless an armed arm of the machine of imperial domination published a report in which it is discovered that in 2016 under the administration Obama was dropped 26 171 bombs, 72 bombs per day, 3 bombs per hour. On Syria, Pakistan, Afghanistan, Libya, Yemen and Somalia. But don't panic these are humanitarian and intelligent bombs, able to make the difference between an innocent civilian and an ISIS soldier. **page 10**

If we want to understand why Donald Trump was elected president, we should instead focus on his opponent's warlike promises rather than try to understand why the American people voted for a so-called «Mysogine, Sexist, Homophobe, Racist, Racialist, Xenophobic, Antisemitic, Nazi, Machist ... ». The name Clinton has been very devastating for countries like Iraq over the past 25 years. Iraq was the victim of an embargo on American initiative under the presidency of Bill Clinton. The list of prohibited products ranged from simple foodstuffs to all pharmaceutical products. In geo politics memory is very important, Madeleine Albright, Secretary of State of the United States under the presidency of Bill Clinton had been interviewed at the time. The journalist asks her: «We know that 500,000 Iraqi children have

## Best president the USA ever had

died, it does more than the children who died in Hiroshima. Is the price worth it? » Madeleine Albright replied very coldly: «I think this is a very hard choice, but the price, we think the price worth it.» **page 10-11** Major US defense suppliers such as Boeing, Lockheed Martin and Northrop Grumman (Weapon Supplier) are strong supporters of Hillary Clinton's policy. Additionally, Goldman Sachs banned his executives from financing Donald Trump's campaign, basically the

the world of finance support Hillary.

On the other side of the Atlantic, in France, during a very famous Saturday night show, the host of France 2 begins its show saying, «Donald trump is the only Donald we'd like to see cut down because of avian flu, at this rate I will not be surprised that the CIA is organizing a dallas cabriolet ride.» **page 3**

## The world afraid !

Insecurity, unemployment, racket, corruption, terrorism, immigration, global warming, economic crisis, conflict of civilization, flu epidemic, cancer, theft, aggression, rape, kidnapping, organized crime, robbery, racism, discrimination, accident, violence, price increase, serial killer, terrorist attack, ISIS, war, debt, shooting, pollution, murder, Trump. Television produces fear, the pharmaceutical industry produces antidepressants and tranquilizers... **page 14** The financial support of George Soros weakened the notions of state and sovereignty is regularly denounced by the US conservative media. blablabla George Soros one of Donald Trump's main opponents, a multi-billionaire has massively invested the media field for a long time, injecting more than \$ 100 million into this sector since the 2000s in order to promote its agenda and its vision of the world. George Soros considers himself a very influential mana. Presenting Donald Trump as «Apprentice dictator», not hesitating to distort his words and created fear. George Soros does not directly advance, but rather through his OGN «Open Society Foundation» or movements that are not directly from his will. «Women's March» funded largely by George Soros, a movement that made a lot of noise, for very little result. It is recalled George Soros also financed the colorful revolutions, the latest to date, ukraine, as well as mass migrations, the latest to date, Emptying of Syria. **page 16**
