Moderator

- **Koen Rossel-Cambier**
Programme Manager, DEVCO C4 Private Sector and Trade

- Conference Language: English
- Language Q&A session: French & English

A key issue for trade and growth of the ACP countries is connection to the Global Value Chains while meeting the high export requirements and gaining the wider market access.

The TBT Programme, supported by the EC with a budget 15 million EUR in collaboration with the ACP Secretariat, has between 2013 and 2017 implemented over 85 technical assistance projects in favour of ACP quality infrastructure institutions and economic operators. This event will share and disseminate good practices, concrete outputs and lessons learned from the programme management and final evaluation teams.
