WHO ARE WE?

Synechron is an independent consulting and IT services provider with headquarters in New York. Since its inception in 2001, the company has been on a strong and steady growth trajectory. Today it has more than 7,500 employees working in 18 countries around the world. Synechron is present on every continent and has state-of-the-art development centres in India, the US and Serbia for Europe.

A RAPIDLY CHANGING SECTOR

Today, the financial services sector is changing rapidly. Several factors need to be taken into account:

- ✓ Regulatory pressure
- ✓ Digital transformation of the business and accelerated pace of innovation: AI, Blockchain...
- ✓ Streamlining of information systems with growing use of software solutions

IT and Business line management are therefore subjected to widely varying technological challenges set against a backdrop of HR and skills shortages.

Take advantage of our great value-for-money offer right now!

Synechron is a business partner who understands your business issues and can rapidly set up targeted IT systems to address them.
