

Hearing Aids

Hearing aids are not all the same and we can select the right aids for you based on your personal hearing loss and lifestyle.

[Hearing aids](#) are becoming more advanced and discreet and have facilities to cope with all sorts of different situations and unwanted noises. We have the most up to date technology to programme and fit modern hearing aids to match your hearing loss.

Follow ups are vital to correctly fit and tune the aids specifically for the individual.

We specialise in top-end hearing aids however we can also advise and fit less costly advanced hearing aids. Our aim is to make quality hearing aids affordable with expert fitting and follow up service.

All options of hearing aid brands and models will be considered to suit your specific needs and preferences. The most popular hearing aid is the new generation small, receiver in the canal (RIC). The small hearing aid fits behind the top of the ear. Scarcely visible, they are easy to fit, handle and adjust, and are comfortable to wear.

HEARING AIDS WARRANTIES

There is a 2 or 3 year warranty for hearing aids depending on the hearing aid make and model. There will be no charge for consultations, but after 2 or 3 years depending on the warranty on the hearing aid, there could be a cost for any parts or factory repairs if necessary.

[Hearing Aid Prices](#)

The price of a hearing aid will be affected by many factors such as the brand, model and what will be appropriate for the client.

The price of the hearing aid is usually the only amount that you will have to pay. This is inclusive of assessments, fitting and follow ups. The cost of the hearing aid includes one month's trial and if by chance the result is unsatisfactory a refund will

incur. A fitting fee of NZ\$300 may apply in the unlikely event of hearing aids being returned.

‘The most popular hearing aid is the new generation small, receiver in the canal (RIC). The small hearing aid fits behind the top of the ear. Scarcely visible, they are easy to fit, handle and adjust, and are comfortable to wear.’
