

Presentation of an article :

# Practical guidelines for radiographers to improve computed radiography image quality

by N. Pongnapang, faculty of Medical Technology, Mahidol University, Bangkok, Thailand

Irène Ouvrard  
UE 5.1 - Semestre 5 - promotion 2015-2018  
IFMEM Xavier Arnozan

# Keywords

- Computed radiography
- Image quality
- Image processing
- Quality control

# Why I chose this article

- Global view on radiographer problematics
- Gives recommended practices
- Teamwork

# Methodology

- Observational survey
- Search in a data base
- Literature search

# Results

- Exposure technique ; proper anatomic collimation
- Radioprotection
- Good knowledge of CR technology
- Calibration of the system

# Conclusion

- Efficient quality control program
- Proper training
- Teamwork
