Presentation of the show project

INTRODUCTION

As I'm writing these words, it's July 17th of 2018 and I'm about to release my first video on YouTube, I've been dreaming to create a channel for a long time but I never dared to go for it.

GTA V will be 5 years old in two months. In 2013, I remember myself eagerly waiting for it and, a few years later, I'm still enjoying this jewel as much. Thank you Rockstar Games for creating this masterpiece.

THE PROJECT'S ORIGINS

On September 17th of 2018, « Grand Theft Auto V », which I consider as the best video game ever, will celebrate its 5 years !

As you will have understood, I'm a huge GTA V fan, of its universe, its beauty, the gaming memories, this amazing city... and even more of LSPDFR. Being able to play the role of a French cop was a gamer's dream for me, if only to turn the police siren on and ride. That's why I will always be grateful towards the people who create the mods and enable to make it happen.

The idea and the desire to create a sort of show (in my modest production levels) from the game kind of came by accident. One day, while my best friend and I were having a coffee, we spontaneously started to imagine some scenarios based on GTA, to have fun, ideas came from all sides, we couldn't stop laughing... Inventing these stories made us feel good, but it didn't go further than discussions and coffee breaks.

One night, we sat down in front of the console and started to play different characters just for fun, and that's how I had the idea : why wouldn't I create a show from a video game that I love this much ?

THE PROJECT'S ORIGINS

Without any experience on YouTube nor knowledge in terms of editing and screenplay writing, I invested some time and money to buy a machine that could record our gaming sessions (until then I only had a basic laptop), modding the game was long for a beginner, but I absolutely enjoyed shooting, creating, inventing, editing... The show will be far from perfection, but one thing is for sure : I really did my best and put all my heart into it.

Very open to critics and feedback, because I'm willing to improve, I still hope that the project will be received with goodwill, but I have no doubt about it.

I would like to release several seasons, by the way I already wrote the next ones, I always dreamed of making a show so making one with GTA V, and also using mods (which seemed unreachable to me a few months ago...) is a delight.

SEASON 1 SYNOPSIS

After a year of deep depression, Ali Krugher is back in the police. Haunted by the old mayor's murder, Larry Milton, who had become a close friend of his, Krugher refuses to live as long as he has not found the person who did it and wants to know his motivations.

Joined by Lionel Tanado, called « Leo », a young and ambitious cop, he now wants to protect the town he loves, Starcity, which is consumed by instability and crime, but is above all looking for redemption by seeking the one that everybody calls « The Politikill ».

The new mayor, Arn Richard, terrified by the killer's actions that scare the city's politicians, threatens to go after Krugher if he doesn't find him quickly.
