

DZ Skills tour 2019 Rules

- Flights must be flown in real time mode (1x sim rate, no accelerated mode allowed).
- All legs MUST be flown online, with real weather.
- The number legs are unlimited; however, the next leg of the tour cannot be flown until the previous leg has been validated.
- A maximum disconnection of 15 minutes will be accepted for various reasons. For oceanic legs, 3x15min are allowed with spacing of 60 min each.
- ATC guidance is not necessary all the way.
- To perform specific tasks on certain legs, you will need to ask permission from ATC.
- Only the aircraft type or similar specific to each leg should be used.
- Some steps must be performed under **Tiny Flight Tracker/Viewer (TFTV 3.01)** from Herve sors link <http://www.aero.sors.fr/GE.html>
- Flight plans without a valid route and alternate airport will not be accepted. The semi-circular rules must also be respected.
- Be connected at least 6min before takeoff and remain connected at least 6min after landing, allowing the tracker to record your entire flight.
- Include as remark in your flight plan RMK/DZ Skills19 Tour.
- The Pilot who has completed all legs will be rewarded by IVAO Algerian Skills Tour Award.

Important: How to use Tiny flight software:

- Launch **TinyFlightTracker.exe** Do not tick the case "stop recording at first landing"
- Start recording.
- When completed the flight: stop recording.
- send the generated file report to: dz-hq@ivao.aero

tasks

Legs	From	To	Stop over	Aircraft type	Tasks	Remarks
01	DAAV	DAAV		Glider planes	Glide with glider at least 25 min and land safely	
02	DAAV	DAAS		Ultralight	Respect the VFR Pattern	
03	DAAS	DAAE		Piston engine light	Vertical integration of the runway at 1500 ft AGL then VFR pattern to land	Need Time Flight tracker
04	DAAE	DABT		Twin piston light	flying under VFR to DABC, then under IFR. Appr VOR/DME Rwy 23. In case of tailwind, execute circling rwy 05 to land.	Need Time Flight tracker
05	DABT	DABC		Helicopter	Fly at 2000ft AGL. On the way maintain in stationary position in flight or in orbit 360° for 3min.	Need Time Flight tracker
06	DABC	DAOI		Twin turboprop cat B	Fly under IFR to DAAG. perform a touch and go runway 27 or 09. when airborne, fly under VFR to DAOI.	Need Time Flight tracker
07	DAOI	DAON		Turbo jet medium	Appr VOR/DME rwy 25. At MDA, execute missed appr as published, then landing at any rwy according winds direction.	Need Time Flight tracker
08	DAON	LXGB		Turbo jet medium	Star: civils arrivals. Expect hold over UPMUP waypoint. Appr according winds direction: SRA civil rwy 09 or 27.	Need Time Flight tracker
09	LXGB	GMTT		Helicopter	VFR pattern	
10	GMTT	TNCM		Heavy	Flying oceanic rules. Approach VORZ rwy10	Need Time Flight tracker
11	TNCM	TNCM	TFFJ	Twin turboprop cat B	Land safely at TFFJ. Re-takeoff after 10 min of stand.	Need Time Flight tracker
12	TNCM	DAAG	GMMN	Heavy	Stopover for refueling at GMMN (maximum of 120min).
