

This Frenchman has proclaimed himself "The Green Emperor of the East and the West" - His vision and program will amaze you!

It is with the objective of providing an effective and proportionate solution to this global crisis and then gradually reforming the system which turns out to be obsolete that **Paul Elvere Valérien DELSART**, officially proclaims, on Friday May 21, 2021 in **Léognan, Nouvelle-Aquitaine in France** , the "**EL4DEV Confederation**" otherwise called "**Green Empire of the East and the West**", a new supranational entity with a societal vocation and becomes de facto the **Green Emperor of the East and the West "Elvere Ist"**.

He thus inaugurated the birth of an ecological, intellectual, artistic and highly enterprising empire :

- Integrating all the nations of East, West, North and South
- Bearing an innovative vision, guided by moral philosophy and acting for a global unification under the banner of spirituality
- Articulated around magnificent cities and experimental plant complexes interconnected on all continents
- Presenting itself as a massively multi-user real-time strategy game ("AGE OF EMPIRES" or "CIVILIZATION" type) - **But not virtual!**

The **Green Empire of the East and the West** is imbued with the ideology of **micronations**, i.e. **micro-states created from scratch (alter-states)** around the world by individuals **seceding virtually and symbolically aiming to be recognized for some and to revitalize their territories for others.**

The **EL4DEV Confederation or Green Empire of the East and the West**, however, is not a micronation. It presents itself as an **international organization with the vocation of supporting all peoples and nations around the world.**

It is a **social alternative to the current United Nations (UN).**

The **EL4DEV confederation** is based on the participatory social engineering program named "**EL4DEV**" which is at the same time a **social, economic, cultural and political vision of emancipation and empowerment of peoples then a movement / mechanism which aims to unify them in a world community respectful of all life.**

Become all active citizen-members of the **Green Empire of the East and the West**.
