

# THE FRENCH PRESIDENTIAL ELECTIONS OF 2022 WILL NOT BE EITHER VALIDATED, OR REJECTED BY THE PEOPLE AND PART OF THE INTERNATIONAL COMMUNITY

Dear fellow citizens,

*One way or another, these elections will not be validated or will be rejected. When it is necessary to start all over again, faced with the observation of destruction, there will be no question of starting over with the same calamitous process, the same political model, the same actors, the same ambitions. Above all, it will be necessary to form a council of wise men/women (I think this is already underway). At this precise moment, come get me!*

*We certainly need thinkers, but above all we need real visionaries and actors. I have resources that escape you at the present time. I have created an enterprising and beneficent supranational entity detached from any organ of the state. With certain ambition, I demand its recognition from certain nations of the international community.*

*Do not doubt the success because I have a plan!*
